PROFESSIONAL SUMMARY

Results-driven **Systems Engineer** with hands-on experience spanning enterprise IT infrastructure, end-user desktop support, relational databases, and ERP system maintenance. Demonstrated capability in diagnosing tier 1–2 hardware and software incidents, deploying operating systems, setting up network points, and managing Active Directory environments. Experienced in enterprise software workflows (PowerBuilder, IBM Informix, PostgreSQL), automation via PowerShell, and hardware maintenance. Leverages AI-assisted development tools to accelerate technical troubleshooting, script generation, and workflow optimization across corporate, public, and retail technology environments.

TECHNICAL SKILLS

- **IT Infrastructure & Desktop Support:** Windows 10/11 Pro Enterprise Deployment, PC/Laptop Hardware Assembly & Diagnostics, Preventive & Corrective Maintenance, Network Printer Configuration, Peripheral Troubleshooting.
- **Networking & Cabling:** Structured Cabling (Cat5e/Cat6), RJ-45 Termination, Network Drops/Points Installation, Patch Panels, LAN/WLAN Troubleshooting, Basic Switching, VPNs.
- **Systems Administration & Directory Services:** Active Directory (Domain Joins, User Accounts, GPO), Microsoft 365, SharePoint Cloud Directory Sync, Remote Desktop (RDP, AnyDesk, TeamViewer).
- **Databases & ERP Platforms:** IBM Informix, PostgreSQL, SQL Server, PowerBuilder (DataWindows, PowerScript Debugging), ERP Business Workflow Support.
- **Scripting & Web Development:** PowerShell, HTML5, CSS3, JavaScript.
- **AI & Developer Productivity Tools:** AI-Assisted Development & Troubleshooting (Claude, Kiro), Prompt Engineering for Technical Workflows & Scripting.
- **Documentation & Soft Skills:** Technical Report Writing, IT Asset Inspection Logs, Incident Ticketing, End-User Training, Customer Technical Consulting & Sales.

PROFESSIONAL EXPERIENCE

PROVEFRUT S.A. | Cotopaxi, Ecuador

IT Assistant / IT Support Specialist | July 2026 – Present

- Provide tier 1–2 enterprise technical support for corporate users and the proprietary ERP platform built on **PowerBuilder** and **IBM Informix**.
- Debug and maintain **PowerScript** logic, DataWindow objects, and backend SQL queries to resolve business workflow tickets, including accounting records and inventory transaction adjustments.
- Lead corporate hardware deployments and standardized OS provisioning (Windows 11 Pro) across Dell OptiPlex fleets.
- Administer **Active Directory** user accounts, workstation domain join procedures, network printer sharing, and **SharePoint** cloud synchronization.
- Develop custom **PowerShell** automation scripts to streamline administrative tasks and workstation audit routines.
- Document technical incident resolutions and update operational standard operating procedures (SOPs).

CONSEJO NACIONAL ELECTORAL (CNE) – DELEGACIÓN PROVINCIAL DE COTOPAXI | Cotopaxi, Ecuador

IT Support Technician / Help Desk Specialist

October 2025 – January 2026

October 2024 – May 2025

- Delivered direct on-site desktop and end-user support to administrative staff across departments, addressing daily operating system, peripheral, and software incidents.
- Assembled, configured, and deployed workstation computer sets, monitors, and local/network printing equipment.
- Assisted in structured cabling infrastructure, including the installation, termination, and testing of physical **network points** to guarantee LAN reliability.
- Performed rapid hardware diagnostics and component replacements on faulty equipment to minimize operational downtime.
- Drafted technical reports, hardware inspection forms, and incident logs for the provincial IT administration.

RENGITECH | Cotopaxi, Ecuador

Computer Technician & Technical Sales Advisor | February 2023 – February 2024

- Executed preventive and corrective hardware maintenance, component upgrades (RAM, SSDs), and operating system installations for client PCs and laptops.
- Diagnosed multi-brand electronic, firmware, and software issues, optimizing system performance and recovery.
- Provided technical consulting to retail and commercial clients regarding hardware specifications, software licensing, and custom computer builds.
- Managed store inventory, handled warranty procedures with technology distributors, and conducted point-of-sale customer service.

EDUCATION

Bachelor of Science in Systems Engineering (*Ingeniería en Sistemas*)

Universidad Técnica de Cotopaxi (UTC) — Cotopaxi, Ecuador

PROJECTS

- **Commercial POS & Sales Management Application:** Designed and developed a custom point-of-sale (POS) and sales management application for a local business. Implemented modules for order tracking, table/service management, transaction logging, and daily cash reconciliation using HTML5, CSS3, JavaScript, and relational database storage.
